

SPRING 2021 VIRTUAL CONFERENCE ON TRAUMA AND ADDICTION

Jack Hirose and Associates

This one-day event to air on Wednesday, , from 8:15am to 5:15pm PST, focuses on Trauma and addiction. The conference features five world renowned experts, among whom are two presenters particularly well known among Indigenous communities: Dr. Gabor Maté and Dr. Martin Brokenleg.

Jack Hirose and Associates are offering this one-day virtual conference at a lowest rate ever, to make this conference accessible to all audiences including professionals and the general public.

ICBOC has been granted a special 20% discount on the cost for our indigenous stakeholders. Continuing education credits and an online certificate will be available and will be applicable towards ICBOC Certifications.

To be eligible for the discount, ICBOC members must register for courses on the Jack Hirose and Associates website and use the promo code, "ICBOC20."

This virtual conference will feature new interactive learning tools including digital handouts, polls and a live Q&A with the presenters. Join Gabor Maté MD, Martin Brokenleg Ed.D., Stanton Peele, Ph.D., Eboni Webb, Psy.D., and Darryl S. Inaba, Pharm.D for this special event.

Presentation from Dr. Gabor Maté

May 19, 2021 - from 8:30am to 11:45am

The Hungry Ghost: A Biopsychosocial Perspective on Addiction, from Heroin to Workaholism

For twelve years Dr. Maté was the staff physician at a clinic for drug-addicted people in Vancouver's Downtown Eastside, where he worked with patients challenged by hard-core drug addiction, mental illness and HIV, including at Vancouver Supervised Injection Site. In his most recent bestselling book *In The Realm of Hungry Ghosts*, he shows that their addictions do not represent a discrete set of medical disorders; rather, they merely reflect the extreme end of a continuum of addiction, mostly hidden, that runs throughout our society.

Presentation from, Dr. Martin Brokenleg,

May 19, 2021 - from 4:15pm – 5:15pm.

Transforming Cultural Trauma into Resilience

Indigenous North Americans have experienced trauma as have many other populations around the world.

Intergenerational Trauma is caused by experiences of war, residential schools, slavery, and social oppression. Trauma is cumulative and required a clear understanding of its symptoms to be identified and cured. Courts and social services increasingly identify and consider the impact of trauma on clients. This one-hour session explores intergenerational trauma, identifies its major symptoms, and examines some healing strategies.
